

PUBLIC NOTICE

The Integration Centre

Connecting Communities. Advancing Integration.

Dear friends, clients, members and colleagues,

The Integration Centre's vision is that Ireland is an inclusive society where immigrants and their families are fully and equally involved.

Established in July 2009 from the merger of Integrating Ireland – the Immigrant Network and the Refugee Information Service, The Integration Centre's identity and organisational direction was arrived at following an extensive consultation with key stakeholders throughout last year.

We would like to thank all involved including the representatives from our network of 255 member organisations nationwide, our clients and colleagues. We would also like to gratefully acknowledge the ongoing support of our funders.

The Integration Centre is committed to the integration and inclusion of individuals, families and children from immigrant backgrounds in Irish society, its institutions and communities. We specialise in integration planning, monitoring and advocacy at city, local, national and international levels and provide a regionalized information and advocacy service for all immigrants including protection seekers, refugees and people with subsidiary protection and leave to remain in relation to understanding and accessing their rights and entitlements.

We offer training to statutory and non-statutory organisations and conduct evidence-based research to influence positive change in integration legislation, policy and practice. The Integration Centre proactively engages with all sectors of society and has a presence in Dublin, Galway, Monaghan, Carlow

and Cork with office locations and contact details as set out below:
